Anantapuramu (Dt) A.P.

IQAC Meeting

Date: 11.06.2022 | TIME - 10:00AM - 11.00 AM | PLACE: PRINCIPAL CABIN - SSE

Attendees

Chairman

FACULTY NAME	Designation/Department	Signature
1. Dr.A.Senthil Kumar	Principal - Chair Person	
2. Mrs. K. Maheswari	ECE/CONVENOR	
3. Mr.O. Bhaskar	CSE/CO-CONVENOR	
4. Mr.N.Pavan Kumar	HOD/EEE	
5. Mr.S.Hari Krishan	HOD/ECE	
6. Dr. Raja Reddy	HOD/Mechanical	
7. Dr. Samba Shiva	HOD/H and S	ABSENT
8. Mr.M.Mahendra	HOD/CSE	
9. Dr.A.S.Ramya	HOD/Civil	

Agenda for the Meeting

Meeting Objective: To Discuss about Academic Performance (odd semester), and focus in institutional functioning towards quality.

Topics to cover:

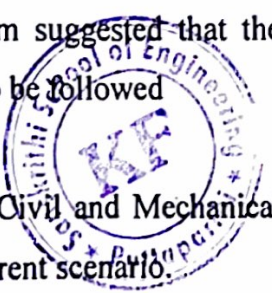

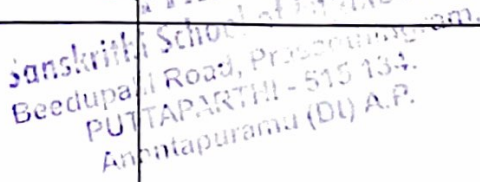

- 1.III B Tech I- Sem results analysis
- 2.Remedial Classes
- 3.Guest Lecturesand Quality Initiative
- 4.Quality enhancement-Projects and activities
- 5.Dept File Audit
6. Infrastructure audit and
7. R&D progress

Principal
Sanskriti School of Engineering
Beedupalli Road, Prasanthnigram,
PUTTAPARTHI - 515 134.
Anantapuramu (Dt) A.P.

Minutes of Meeting held on 11/06/2022

Review of agenda points:

N	Subject/Action	Responsibility	Target Date	Remarks
	Welcome & Thank Message Beloved Principal welcome's all the HOD's and IQAC Coordinators for the meeting also He thanked all the HOD's and IQAC Coordinators for their excellent support.	--	11/6/2022	--
	Based on the III year I-Sem results, we identified less than 50% pass in subjects, the following measures to be promote for higher outputs.	Concerned Subject faculty	25/7/2022	1. remedial classes 2. solved answers for previous question papers 3. identify the student leaders
	Guest lectures- Subject experts from government colleges / Industries should invited for guest lecturers for tough subjects and industry areas	All HOD's	20/07/2022	To be implemented by department wise.
	Quality enhancement projects should be identified from final year projects. Each department identify top 4 projects based on the following parameter 1. Academic viability 2. innovation 3. society related work 4. enhance for continuation for future	All HOD's	28/06/2022	--
	As per JNTUA conduct two reviews for SRP projects.	All HOD's	15/07/2022	Need to plan & implement the activities.
	Students Seminars must be encouraged with all department	All HOD's	--	Once in 15 days checking of the document from department wise.
	Infrastructure-Suggested to rectify problems in digital class room (like projector, audio).	--	immediate	Enrich the level of output with high 
	Positive feedback from the students for strengthening the Mechanical and Civil branches. The team suggested that the following points to be followed i) Field activity ii) Importance of Civil and Mechanical Engineering in current scenario.	Mech and Civil Department HOD's 	immediate  	Respective HODs and focus on students high outputs

my Concern
auto mobiles.

iv) Making more awareness on natural
resources.

Others:Nil

20.08.2021

Action plan for IQAC development

S.No	Name of the Activity	Description	Target	Remarks
1.	Innovative teaching Methods	PPT, Mini projects, poster presentation, video lectures like NPTEL and etc	Per subject 5 activities	Per semester 30 activities should be conducted
2.	Publication: Journal / Book chapter/Conference	Indexed in Scopus/UGC care journals	One per faculty and 4 to 5 per department	Expecting 20 no's in total per semester
3.	Events participating	FDP/Conference/webinar/workshop	Four per department	Expecting 20 no's in total per semester
4.	Events Organizing	Webinar/Seminar/Conference/FDP	Two per department	Total 10 no's per semester
5.	Internship/Industrial visit	Industrial visit	Applicable for all students and Faculties	
6.	Mini project	Design/Programming/Experimental work	Per semester per 3 mini projects	Total 15 no's per semester
7.	Knowledge sharing session	Faculty and students' knowledge sharing session	Weekly one activity should be conducted and it is mandatory for all students and faculties	Applicable for all branches

Quality Education Using Outcome Based Education

Mission, Vision & Objectives
Program Educational Objectives (PEO)
Graduate Attributes (GA)
Student learning outcomes (SLO)
Program outcomes (PO)
Course outcomes (CO)
Syllabus, Unit & Lesson Plan Outcomes
Teaching Methods
Assessment & Evaluation Tools
Customizable Rubrics & Marking Schemes
Continuous Quality Improvement (CQI)
Outcome-based Education & Accreditation
Student Success
Constructive alignment
Presentation of outcomes with automated mind mapping

Quality education comes with outcome-based education

A move to implement software tools to support outcome-based learning, teaching, assessments will benefit in many ways. It will improve learning outcomes and accelerate continuous quality improvement processes. Here are the 10 steps to improve education quality and student achievement with outcome-based education software:

Mission, Vision & Objectives

The central feature of OBE software is modelled to improve quality education. Thus, it prepares the mapping of the mission, vision, and values set by the institute with the program educational objectives (PEOs).

Vision

To offer high quality education in Engineering to meet the global challenges technically, professionally and ethically with lifelong learning motivation.

Mission

To provide strong theoretical foundation, practical skills, professional conduct critical thinking and to create Engineers for meeting the current and future demands of our nation and the world.

Program Educational Objectives (PEO)

In terms of student achievement, PEOs are assessed for a longer duration. What the graduates are envisaged to achieve in their career 4-5 years after graduation. PEO attainment is based on stakeholder inputs using an online survey questionnaire. This will ensure that graduates are broadly satisfied with their achievement in all PEOs.

Graduate Attributes (GA)

Graduate attributes are often known as key skills, generic attributes, transferable, employability, soft skills and/or managing skills.

Sanskriti School of Engineering
Beedupalli Road, Prasanthigram,
PUTTAPARTHI - 515 134.
Anantapuramu (Dt) A.P.

4. Student learning outcomes (SLO)

student can do as a result of a learning experience. It describes the attributes of their ideal graduates based on their visions, missions, institutional goals or outcomes.

5. Program outcomes (PO)

Program outcomes are the sets of competencies (related knowledge, skills, and attitudes) that all learners are expected to demonstrate. These desired outcomes are mapped to the expected learning outcomes in specific courses. The desired course and learning outcomes are attained through assessment and evaluation tools.

6. Course outcomes (CO)

Course outcomes refer to the knowledge, values, and skills all learners are expected to demonstrate at the end of a course. Learning outcomes are mapped to course outcomes and program outcomes.

7. Syllabus, Unit & Lesson Plan Outcomes

Course outcomes lead to lesson outcomes. Create a syllabus, unit, and lesson plan to link with the learning outcomes of each teaching activity. This aids coherence and cohesion in student learning.

8. Teaching Methods

Technology-enabled performance demonstration of pedagogical learning through video lectures, podcasts, and slide presentations would innovate and enhance students' learning experience. Technology-aided teaching methods and assessments would enable education institutions to accurately and perfectly map with the targeted outcome. This enables students and faculty to work together as partners toward achieving a visible and clear goal.

9. Assessment & Evaluation Tools

Implementing OBE further translates to the quality and orientation of the faculty members. The core mission of teaching is to build the learning competencies. Online tests, assignments, quizzes and puzzles, and evaluation of courses/faculty through a survey questionnaire or the attainment of PEOs

10. Customizable Rubrics & Marking Schemes

Assessment of writing, oral communication, critical thinking, or information literacy often requires rubrics. Automated rubrics are standardized scoring guides that assist evaluators to make assessment more transparent, easy, consistent, and objective. They even determine the quality of student work in a consistent manner.

11. Continuous Quality Improvement (CQI)

Quality in higher education comes with CQI. Online assessment and evaluation process provide critical information to faculty and administrators. They also give real-time reports on the effectiveness of the program design, delivery, and objectives. CQI tools based on digital feedback loops through course/faculty evaluations easily. They will enable the institution to enhance the quality of education and the process will continue year after year.

12. Outcome-based Education & Accreditation

Yet another way for enhancement of quality of education in schools, higher education is gaining accreditation. Accreditation Management System offers automated tools which enable

[Signature]
Principal
Sanskriti School of Engineering
Beedupalli Road, Prasanna Nagar,
PUTTAPARTHI - 515 124.
Andhra Pradesh (A.P.)

higher education institutes to easily measure the achievement of the outcomes. It also lets an institution improve the quality of higher education accordingly.

3. Student Success

There is a paradigm shift from traditional OBE to technology-based, learner-centred result-oriented OBE. This is reflected in the key purpose that technology enhances learning and performance abilities of students before they leave the institution. Structuring colleges, universities and higher education institutions to achieve and maximize learning outcomes of students is the key to OBE principles.

4. Constructive alignment

Constructive alignment or linking learning outcomes to multiple curriculum elements is unique to OBE. Mapping skills, competencies, PEO's, PO & CO, teaching methods and assessments with the learning outcomes foster better student achievement and educational quality.

5. Presentation of outcomes with automated mind mapping

Mind maps can be used to trigger & represent complex ideas and relationships, to assist in thinking, writing, and decision making. Students gain a non-linear form of outlining with mind mapping. The power of auto-generated mind maps represent the way curriculum elements are arranged, classified and grouped instantly and easily.

Minutes of meeting held with IQAC members

on 12.11.2019 at 11:00 A.M.

S.No.	Department	Committee members	SIGNATURE
1	CIVIL	Mrs.V.R.Uma	
2	EEE	Mr. N. Pavan Kumar	
3	MECHANICAL	Mr. B.A.Chandra Shekar	
4	H & S	Mr. N. Manian	
5	ECE	Mr. S. Harikrishnan	
6	CSE	Mr. C. Siva Kumar	

AGENDA:

1. Conducting Alumni Meet
2. Publications by faculty members and students
3. Improvement of academic performance.

Following points are discussed:

1. Conducting Alumni Meet :

The members discussed about to host an Alumni meet on 7/12/2019 to the first batch of students of an Institution is always equivalent to the first child for a mother so are the students of batch 2015-2019. Many provide a variety of benefits and services that help alumni maintain connections to their educational institution and fellow graduates.

2. Publications by faculty members and students:

The meeting discussed the issues pertaining to publications by faculty members and students in reputed journals and also encourage the students to present papers in National/International seminars

3. Improvement of academic performance:

In all the department Pre final exams are scheduled from 8th November to 15th November, to improve the performance of the students in the end exam.

Minutes of meeting held with IQAC members

on 6/11/2018 at 11.00am.

S.NO.	Department	Committee member	SIGNATURE
1	CIVIL	Mrs.PARVATHI DEVI.A	
2	EEE	Mr. PAVAN KUMAR.N	
3	MECHANICAL	Mr.N.Sreeram	
4	H&S	Mr.N.JManian	
6	ECE	Mr.S.Harikrishnan	
8	CSE	Mr.C.SIVAKUMAR	

Following points are discussed:

1. Student's attendance performance:

identified the students those who are having less than 65% And informed to the parents to meet the respective counsellors and faculties. By doing this parents came to know about their ward and they will make sure that this mistake wont repeat by the student next time on wards.

2. Pre-Final exam and students feed back:

In all the departments Pre final exams are scheduled from 3RD November to 10th November, to improve the performance of the students in the end exam.

Two exams are over in all departments and students given very good feed back on these exams.

3. Internal lab exam status and students feed back:

In all the departments lab internals are finished and those are evaluated and marks also displayed to students. students given very good feed back on these exams.

Minutes of meeting held with IQAC members

on 05/10/2018 at 11.00am.

S.NO.	Department	Committee member	SIGNATURE
1	CIVIL	Mrs.PARVATHI DEVI.A	
2	EEE	Mr. PAVAN KUMAR.N	
3	MECHANICAL	Mr.N.Sreeram	
4	H&S	Mr.N.Manian	
6	ECE	Mr.S.Harikrishnan	
8	CSE	Mr.C.SIVAKUMAR	

Following points are discussed:

1. All the members discussed Student's attendance performance and identified the students those who are having less than 65% :And decided to follow these points in order to improve their attendance from the past months, Intimating to the student parents (those having less than 65%) and also to sending the attendance through letters. By doing this parents also came to know about their ward as well as motivate them to attend the college regularly. This is going on regularly with the help of class teachers and counsellors.

2. How to improve midterm and End exam Performance:

All the members are decided to conduct pre final exams to improve the performance of the students in the end exam.

Also some members suggested to solve some previous question papers in the class after completion of their syllabus.

Improve results in the mid 2 exam will be achieved by conducting slip tests, it is going on regularly in every department for tough subjects and also for all subjects in some of the departments.

3. Improving the result for Students having backlogs:

For clearing the backlogs members are proposed to conduct some special classes in the sports/library hours for the failure students and also some special classes during the holidays to guide and help the students to clear the failed subjects

Principal
Sanskriti School of Engineering
Beedupalli Road, Prasanthiagram,
PUTTAPARTHI - 515 134.
Anantapuramu (Dt) A.P.

4. Syllabus coverage:

Collected the syllabus coverage from the respective department coordinators and identified the syllabus lagging subjects and proposed to take some extra classes to finish the syllabus before one week from the last working day.

5. Laboratory status:

Collected the lab experiment completion data from the respective members and also proposed to conduct lab internal exam to improve the performance.

6. Any other points discussed:

Discussed to update the lecture notes in the moodle.

Minutes of meeting held with IQAC members

on 04/08/2018 at 11.00am.

S.NO.	Department	Committee member	SIGNATURE
1	CIVIL	MRS.PARVATHI DEVI.A	
2	EEE	MR.PAVAN KUMAR.N	
3	MECHANICAL	MR .N.SREERAM	
4	H&S	G.MADHURIMA	
5	ECE	MR.S.HARIKRISHNAN	
6	CSE	C.SIVAKUMAR	

Following points are discussed:

1. We discussed Student's attendance performance.
2. Student's midterm performance and number of absentees.
3. Members are proposed to conduct slip tests for second year students to improve their performance.
4. Members are discussed to intimate the student's parents regarding the same and request the parents to instruct their children.
5. We discussed to inform the concerned proctor staff to council the students to motivate the students regarding preparation for the midterm and main exams
6. We discussed Syllabus coverage and discussed Laboratory status.
7. Based on student's feedback we proposed to conduct skill development courses for second years also.

Internal quality assessment cell

Objective: To evaluate the performance of the students and prove quality education.

Methodology:

1. To have a record of attendance of the students and identity the irregular students.
2. To explore the reasons for their absence and counsel the students and follow certain corrective measures to make the students regular.
3. To conduct the regular tests chapter wise and unit wise and record the marks obtained in the test. To instruct the students who got less marks so as to focus concentration on the weak subjects and strengthen the same.
4. To give assignments to the students after completion of certain topics and see that all students submit the same.
5. To group the students on merit basis and classify them as group A, group B and group C.
6. To intimate the staff regarding proctor files of the students and counsel them based on the above facts.
7. To intimate the parents of students regarding the progress of the students as and when necessary and involve the parents in counseling of their wards.

Actions initiated:

1. On every Saturday, the 1st year students who have less attendance are being counseled.
2. On every Wednesday 2nd year students who have less attendance are being counseled.
3. Based on the results of the students specially for 1st year students additional tutorial classes are conducted after 5'o clock every day for supplementary subjects. This action imparts certain practice and improvement in the performance of the students.
4. Tests are conducted for each chapter and each unit. The marks of the students are recorded and assessed the performance.
5. Parents are informed about the attendance of the students and also their marks in the unit tests.
6. Steps are taken to complete the syllabus well before 25days of the main exams by the staff and could achieve the same.
7. After completion of the syllabus, tests are planned for 2units in one test for all branches of 1st year and 2nd year students and monitoring the same.

Results:

1. Found certain positive attitudinal change from students.
2. Progressive change in the performance of the students
3. A sort of confidence induced in students.
4. Parents got some satisfaction on their wads.

Academic and Administrative Audit (AAA) for the Academic year: 2021-2022

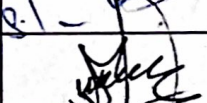

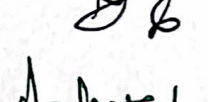

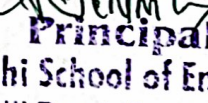

Opening Meeting Minutes

Date: 06.05.2022

Time: 9.30 AM

Venue: Principal Office

Members/Participants:

Name	Designation	Signatures
Prof. (Dr) K. S Rajanandam	Auditor member Principal (Retd) M S Ramaiah Institute of Technology Bengaluru, Karnataka	
Prof. (Dr) T .V .Suresh Kumar	Audit Coordinator Bangalore, Karnataka	
Dr. A.Senthil Kumar	Principal, Sanskrithi School of Engineering	
Dr.M.Balakoteswari, Dean	Academics, Sanskrithi Group of Institutions	
Mr.S.Harikrishnan	Head of the Department ECE	
Mr.D.Nagaraju	IQAC Coordinantor	

Agenda:

1. Welcome and Introductions
2. Review of Audit Objectives and Scope
3. Discussion of Audit Procedures and Timeline
4. Clarification of Roles and Responsibilities
5. Questions and Concerns from Participants
6. Next Steps and Action Items

Principal
Sanskriti School of Engineering
Beedupalli Road, Prasanthnagar,
PUTTAPARTHI - 515 134.
Anantapuramu (Dt) A.P.

Minutes:

1. Welcome and Introductions

The meeting was called to order by Dr Senthil, the Principal.

Attendees introduced themselves, stating their names and roles within the institution.

2. Review of Audit Objectives and Scope

Prof. (Dr) T .V .Suresh Kumar provided an overview of the audit objectives, emphasizing the need to assess the institution's academic processes and standards.

The scope of the audit was discussed, including the areas and departments to be covered (as mentioned in Annexure-1)

3. Discussion of Audit Procedures and Timeline

The auditors explained the planned procedures for data collection, document review, interviews, and observations.

The proposed timeline for the audit was presented as mentioned in *Annexure -2*

4. Clarification of Roles and Responsibilities

The roles and responsibilities of the audit team and institution representatives were clarified. The Principal, Dean, IQAC coordinator, and HoDs were identified as key points of contact for the auditors.

5. Questions and Concerns from Participants

Participants were given the opportunity to ask questions or raise concerns regarding the audit process, confidentiality, or any other related matters.

The meeting was adjourned by the Principal at 10 am on the Date: **06.05.2022** for Closing meeting at 5 PM on Date: **06.05.2022**

Meeting Minutes:

1. Welcome and Introductions

The meeting was called to order by the Principal

2. Recap of Audit Objectives and Scope

The audit objectives and scope were briefly reviewed to ensure a common understanding among the participants.

3. Presentation of Audit Findings and Observations

The auditors presented their findings and observations based on the audit procedures conducted.

Key areas of strength and areas requiring improvement were highlighted.

The auditors provided supporting evidence and documentation to substantiate their findings
(Annexure -3)

4. Discussion of Recommendations and Action Plans

Recommendations for improvement were discussed, focusing on specific actions that could address the identified areas for improvement.

Participants provided input and suggestions regarding the proposed action plans.

Responsibilities and timelines for implementing the action plans were assigned.

5. Questions and Comments from Participants

Participants were given the opportunity to ask questions, seek clarification, or provide additional comments regarding the audit findings, recommendations, or action plans.

6. Acknowledgment and Appreciation

The auditors expressed their appreciation to the institution representatives for their cooperation and assistance throughout the audit process.

The institution representatives acknowledged the efforts of the audit team and expressed their commitment to implementing the recommended improvements.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING (Power Packed People)

Three days Workshop on Gamification

Date: 21/02/2019

EVENT DESCRIPTION:

The Department of EEE, SANSKRITHI SCHOOL OF ENGINEERING (SSE), Puttaparthi, is organizing A Three Days Workshop on - "Gamification with AR&VR Build box" in association with APSSDC, Govt of Andhra Pradesh during from 21st to 23rd February 2019 in our SSE Campus.

Prof. Dr. A.Senthil Kumar, Principal, Mr. N. Pavan Kumar, HOD, EEE, APSSDC Resource Persons – Mr.Gousepeer, Mr. Hari Prasad Reddy, EEE Staff and Students participated in the Inauguration Function conducted on 21st February 2019 at 9:30 am in APSSDC Center, SSE Campus.

A. Senthil Kumar
Principal
Sanskriti School of Engineering
Beedupalli Road, Puttaparthi

BUILDBOX CURRICULUM

1	1st Day	Gaming introduction, Buildbox 2 installation & game engines.
		Assets downloading, what is an asset?
		Basic settings, genres, world settings.
		Tabs means File, edit, add etc.
		Character part – 1, Character part – 2 & 3.
		Objects part -1,& Objects part -2.
2	2nd Day	Effects part – 1 & Effects part – 2.
		Logics part – 1 & Logics part – 2.
		Scenes explain, object layers ex :- send to Back
		Adding scenes.
		Frame settings, lock background, snap movement, etc.
		Actions Part – 1 , Actions Part – 2 & Actions Part - 3
3	3rd day	Mind map part -1 & Mind map part -2
		User interface (UI) part – 1, User interface (UI) part – 2 & 3
		Play all genres - 26 game demos
		26hr - 38 hr (cross platform game you like & must power ups & tricks & traps very complicated)
		Scoring
		Scenes explain, object layers ex :- send to Back

EVENT DESCRIPTION:

This program is targeted to Electrical and Electronics students with some knowledge on game designing. Gamification is a business tool representing a whole new direction for achieving the goals you have set for your company. But small businesses have been shying away from it because of the emphasis on large, global enterprises deploying the technology. That's too bad because Gamification is a tool small businesses can easily implement to create innovative programs allowing them to compete with large brands.

Build box is an all in one game making tool and asset package that is designed to be user friendly, even for people with no coding experience whatever. With it games can be conceptualized and built in a matter of days or even hours. Build box's core appeal is a drag and drop interface. You can drag a file from elsewhere on your computer into the box, and then you will be given the option to decide whether it is classified as an object, background, character or action.

Principal
Sanskriti School of Engineering
 Beedupalli Road, Prasanthi, Puttaparthi - 515 154.
 Anantapuramu (D.A.P.)

From there, you can move the assets around as you like, building the game world as easily as you would put together a model or paint a picture. Because Build box is simple to use, it might be easy to assume that it is not complex or deep. But it is equipped with a number of tools designed to make your game as complicated as you want it to be. You can build your game in different dimensions, add advanced animations, and even put in a pay-to-play monetization system.

The game design can begin with something like an image. It can be a character sketch, a beautiful background, or an in-game object. Bohed, however, recommends planning extensively at the beginning. "It's better to make some drafts of the game, take notes," he says. "Like, 'what's the best orientation for the game...horizontal or portrait? How does the player proceed through

levels? What are the enemies like [if there are any], and how do they interact with the main character etc.

Here are a few things that are currently available that that further refine the game-making process in Build box:

DEPARTMENT OF CIVIL ENGINEERING

Name of the Event	:	APSSDC workshop on REVIT ARCHITECTURE
Date/ Day of the Event	:	21/11/2022 to 26/11/2022 (Monday to Saturday)
Time	:	09:00 am to 05.30 pm
Venue	:	APSSDC Lab
Number of person attended	:	76 no's
Sponsoring Organization	:	APSSDC
Chief Guest	:	Mr.V.Bramhesh, APSSDC LAB, REVIT trainer, Anantapur, 9573104915, bramhesh.v@apssdc.in
Convener	:	Mr. Hari Krishnan, HOD/ECE, APSSDC Coordinator Dr.A.S.RAMYA, HOD/CIVIL
Coordinators	:	Ms.J.Jayasree, AP/Civil Mr.G.Rammohan, AP/Civil
Platform	:	Offline mode

About the Program

This workshop will take you from a beginner to an intermediate level where you can easily design your projects on Revit. Ar. Ayman teaches in a continuous, step-by-step manner and covers all the topics mentioned below in a very easy to understand manner.

No experience required, quickly become the real-world guide for building with Revit - the powerful and sophisticated building information modeling (BIM) software used by professionals all over the world. By the end of the course, participants will have the skills and knowledge to take a project from start to finish using the tools and library provided by Autodesk.

Objective of the Program

The objective of the Revit Architecture Fundamentals workshop is to enable students to create full 3D architectural project models and set them up in working drawings. This workshop focuses on basic tools that the majority of users need to work with Revit Architecture.

About the chief guest

Mr.V.Brahmesh is certified BIM and Revit specialist and instructor. He has the qualifications in parametric design, BIM software & workflows and many aspects of engineering and technology. He has over five years of experience in teaching BIM, Revit and Dynamo to students all around the world.

Summary of the Event

The Civil engineering department of Sanskriti School of Engineering has organized a one-week APSSDC sponsored workshop on "REVIT ARCHITECTURE". The offline event took place on the 21st November 2022 to 26th November 2022 at APSSDC Lab. Mr.V.Brahmesh, APSSDC Trainer was the featured speaker at the event.

The function began precisely at 10:00 a.m. All of the students and faculty members were invited to participate. This workshop had a total of 76 participants. Dr.A.Senthil Kumar, Principal/SSE, read the Chief Guest's welcome note and welcomed all attendees, including students and faculty members. The trainer exactly starts the Revit training at 10:30 a.m. and lasted until 05:00 p.m. He was very clear about BIM (Building Information Modeling).

Key Outcome of the event

The following outcomes were obtained at the end of the day:

- Student will learn to develop higher-quality, more accurate architectural designs; use tools specifically built to support Building Information Modeling workflows.
- Students will learn to capture and analyze concepts, and maintain your vision through design, documentation, and construction.
- Student will learn to dock dialogs in a single window; more easily model, edit, and document designs; place air terminal devices on duct faces; restrict angles for pipe, duct, and cable tray; cap open ends of pipe or duct content quickly; rebar placement constraints customization; gain control over rebar placement; and get more rebar options when modeling.
- This software is used for the smooth running of project development, visualising the design process in 3-dimension.

Participation details

Student Participation	II & III year civil students
Faculty Members	SSE Civil Faculty members
Total Participants	76 Nos
Feedback about program from participants	Very Good
Feedback about Resource person from participants	Excellent

Workshop On APSSDC IOT

Date: 12/10/2018

About APSSDC:

Andhra Pradesh State Skill Development Corporation (APSSDC) is a unique organization formed as a Public-Private Partnership (PPP) corporation to promote skill-development & entrepreneurship in the state of Andhra Pradesh. The objective of APSSDC is To Implement a structured and pragmatic solution to skill and up skill the workforce in the state of A.P. and to increase employability, and promote entrepreneurship in sync with Industrial growth of the State.

Students of IV-EEE Department have participated in the 3 Days Workshop on APSSDC on Internet of Things

SESSION ACTIVITIES WITH RESOURCE PERSONS:

- Ms. G. Sumohana
- Ms. B. Sathayavathi

The programme started at 10.00 AM, the workshop is addressed by Group Director Dr.P.Narayana Reddy, Principal Dr.A.Senthil kumar, vice principal Dr.E.V.Subbareddy, APSSDC members and staff members with the explanation of IOT. Total 54 students participated in the workshop. The resource persons explained how IOT is better than other individual design software.

The basic objective of the program is

- To gain the Hands-on workshop
- To improve the Ideas on Design projects
- To enhance Employability Skills

The APSSDC members more concentrated on practical session of given tasks to the students and students are also able to do practice.

Behalf of students and faculty I thank to management, group director, principal for giving this opportunity.

CIRCULAR

Dear Students!

Sub: placement training-Reg.

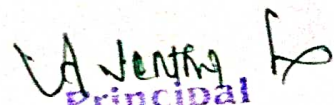

We are glad to inform, there will be a placement training on "INFYTO -INFOSYS Training" by Technical Trainers from 18 - 01 - 2022 to 29 - 01 - 2022 for the benefit of students employment & their careers.

So, we request all the students to attend the placement training and make successful.

PLACEMENT TRAINING ON “MPHASISTRAINING”

(23.08.2021 to 28.08.2021)

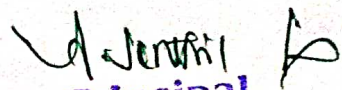

Introduction:

Sai Sanskrithi Knowledge park conducted a Placement Training for “MPHASIS DRIVE by “Ms. Kaveri mam, Mr. Salim Bhasha sir” from 23.08.2021 to 28.08.2021 the training was arranged by management & principal for the for the benefit of students employment & their careers.

About Aptitude

An aptitude test is a way for employers to assess a candidate's abilities through a variety of different testing formats. Aptitude tests will test your ability to perform tasks and react to situations at work. This includes problem-solving, prioritization and numerical skills, amongst other things.

About Logical Reasoning

Logical thinking skills are important because they can help you reason through important decisions, solve problems, generate creative ideas and set goals—all of which are necessary for developing your career. Whether you have just entered the workforce or want to advance your career, you will come across challenges on a daily basis that requires logical reasoning skills. The stronger your logical thinking skills are, the more easily you will be able to come up with solutions and plans that benefit you and your work place.

About Coding

Coding, in simpler terms, is the language used by computers to understand our commands and, therefore, process our requests. Programming is a list of codes arranged in a sequence that results in the completion of work.

About Verbal Ability

Verbal Ability is defined as the capability of a person in expressing ideas using words in a clearly understandable manner. Verbal Ability is a very important component of competitive examinations. For aspirants who want to get good scores in Verbal Ability, a good vocabulary and sentence-forming skills are vital.

The trainers had trained our students based on the given programming content. Its fully based on AMCAT content.

- ☐ Quantitative aptitude
- ☐ Logical Reasoning
- ☐ Verbal Ability
- ☐ Coding
- ☐ Computer Programming

The students have given an excellent feedback about the one week training. Finally Mr. Hari Krishnan, HOD- ECE thanked Mr.Vijaya Bhaskar Reddy, Chairman, SGI, Principal Dr.A.Senthilkumar, for their great support towards the successful completion of placement training, also he thanked the ECE faculty members for their support and coordination towards training.

Microchip- AVR Microcontroller Programming

Name of the Course: Microchip

Date: 22-08-2022

Duration: 20 hours (22/08/2022 to 26/08/2022)

Name of the Co-ordinator: Ms.Rajini, Assistant Professor / ECE

Vendor: Edu skill Foundation

About Program:

Microchip Technology Inc. is a leading provider of micro-controller, analog, FPGA, connectivity and power management semiconductors. Its easy-to-use development tools and comprehensive product portfolio enable customers to create optimal designs which reduce risk while lowering total system cost and time to market. The company's solutions serve more than 130,000 customers across the industrial, automotive, consumer, aerospace and defence, communications and computing markets. Headquartered in Chandler, Arizona, Microchip offers outstanding technical support along with dependable delivery and quality. Microchip's Academic Program demonstrates our ongoing commitment to support the education of the next generation of engineers. We offer unique benefits and resources for educators, researchers and students worldwide. Our partnership with academia is intended to increase the awareness and knowledge of embedded applications and inspire students to become the innovators of the future.

Microchip Contents of Course:

- ❖ ISP flash memory
- ❖ 54/69 general purpose I/O lines,
- ❖ 32 general purpose working registers,
- ❖ a JTAG interface for boundary-scan and on-chip debugging/programming,
- ❖ three flexible timer/counters with compare modes,
- ❖ internal and external interrupts,
- ❖ serial programmable USART,
- ❖ A/D converter,
- ❖ programmable watchdog timer with internal oscillator,
- ❖ SPI serial port.

Course Registration Details:

All the 3rd Year ECE students are Registered.

W. J. Jeyaraj

Paloalto Cyber Security

Name of the Course: Palto Alto Cyber Security Duration: 25 hours Date:13-10-2020
Name of the Co-ordinator: Peddakotla Meghana Vendor: Edu skill Foundation

Program Objectives

- ❖ Discover modern computing trends and application threat vectors.
- ❖ Configure a network interface and test for connectivity.
- ❖ Identify cloud computing and software-as-a-service (SaaS) application challenges.
- ❖ Explore recent cyber-attacks and their impact on business.
- ❖ Review attacker profiles, motivations and the Cyber-Attack Lifecycle.
- ❖ Recognize high-profile cyber security attacks and Advanced Persistent Threats.
- ❖ Identify malware types, vulnerabilities, exploits, spamming and phishing attacks.
- ❖ Configure and test a malware analysis security profile.
- ❖ Describe how bots and botnets are used to attack enterprise networks.
- ❖ Explore Zero Trust design principles, architecture, capabilities, and implementation.
- ❖ Review perimeter network security strategies, policies, models, and trust boundaries.
- ❖ Setup and configure inside, outside and DMZ security zones on a NGFW.
- ❖ Create and test an authentication policy on a next generation firewall.
- ❖ Review capabilities of the Security Operating Platform and components.
- ❖ Explore how to secure the enterprise with NGFW and Traps endpoint protection.
- ❖ Configure the NGFW to allow only trusted applications.

Program Schedule:

Sl. No.	Dates	Topic	Resource Person
1	13-10-20	Cyber security Gateway	Mitu
2	14-10-20	Cyber security foundation-1	Mitu
3	15-10-20	Cyber security foundation-2	Mitu
4	16-10-20	Cyber security essentials	Mitu
5	17-10-20	Cyber security essentials	Mitu

Cyber security gateway:

Module includes Physical, Logical and Virtual Addressing, Packet Encapsulation and Lifecycle, Cyber security landscape and Threats, Cloud, Virtualization and Storage security, Networking Concepts and principles. The main outcome of this module is to Backup Firewall logs.

Cyber security foundation:

Module includes Cyber-Landscape, Cyber-Threats, Cyber attack Types and Techniques, Cyber security Models and Design Principles, Security Operating Platform. The main outcome of this module is to Security Operating Platform.

Cyber security foundation:

Module includes Cyber-Landscape, Cyber-Threats, Malware and Spamming, Wifi and Advanced threats, Network security models, Cloud and Data Centred Security, Network Security Technologies.

Cyber security essentials:

Module includes Cyber security Design principles, Security Operating Platform, Cryptography, PKI, and certificate Protection, Mobile/Cloud Security, Advanced Endpoint Protection, Threat Prevention and Intelligence.

Outcomes:

Adarsh R.
Principal
Sanskriti School of Engineering
Boodupalli Road, Prasanthnigram,
PUTTAPARTHI - 515 134.

About Program:

Microchip Technology Inc. is a leading provider of micro-controller, analogy, FPGA, connectivity and power management semiconductors. Its easy-to-use development tools and comprehensive product portfolio enable customers to create optimal designs which reduce risk while lowering total system cost and time to market. The company's solutions serve more than 130,000 customers across the industrial, automotive, consumer, aerospace and defence, communications and computing markets. Headquartered in Chandler, Arizona, Microchip offers outstanding technical support along with dependable delivery and quality.

Microchip's Academic Program demonstrates our ongoing commitment to support the education of the next generation of engineers. We offer unique benefits and resources for educators, researchers and students worldwide. Our partnership with academia is intended to increase the awareness and knowledge of embedded applications and inspire students to become the innovators of the future.

Microchip Contents of Course:

- ❖ ISP flash memory
- ❖ 54/69 general purpose I/O lines,
- ❖ 32 general purpose working registers,
- ❖ a JTAG interface for boundary-scan and on-chip debugging/programming,
- ❖ three flexible timer/counters with compare modes,
- ❖ internal and external interrupts,
- ❖ serial programmable USART,
- ❖ A/D converter,
- ❖ programmable watchdog timer with internal oscillator,
- ❖ SPI serial port.

Course Registration Details:

All the 3rd Year ECE students are Registered.

CISCO CERTIFIED NETWORK ASSOCIATE INTRODUCTION TO NETWORK

Name of the Course: CCNA

Date: 29/06/2021

Duration: 40 hours

Name of the Co-ordinator/ Instructor: N.Pavan Kumar, Assistant Professor / EEE

Vendor: Edu skill Foundation

CCNA (Cisco Certified Network Associate) is a popular certification for computer network engineers provided by the company named Cisco Systems. It is valid for all types of engineers including entry-level network engineers, network administrators, network support engineers and network specialists. It helps to become familiar with broad range of networking concepts like OSI models, IP addressing, Network security, etc. It is estimated that more than 1 million CCNA certificates have been awarded since it was first launched in 1998. CCNA stands for "Cisco Certified Network Associate". The CCNA certificate covers a broad range of networking concepts and CCNA basics. It helps candidates to study CCNA fundamentals and prepare for the latest network technologies they are likely to work on.

CCNA Course Curriculum:

- ❖ OSI models
- ❖ IP addressing
- ❖ WLAN and VLAN
- ❖ Network security and management (ACL included)
- ❖ Routers / routing protocols (EIGRP, OSPF, and RIP)
- ❖ IP Routing
- ❖ Network Device Security
- ❖ Troubleshooting

Why to acquire a CCNA certification?

- ❖ The certificate validates a professional's ability to understand, operate, configure and troubleshoot medium-level switched and routed networks. It also includes the verification and implementation of connections via remote sites using WAN.
- ❖ It teaches the candidate how to create point-to-point network
- ❖ It teaches about how to meet users requirement by determining the network topology
- ❖ It imparts on how to route protocols in order to connect networks
- ❖ It explains about how to construct network addresses
- ❖ It explains on how to establish a connection with remote networks.
- ❖ The certificate holder can install, configure and operate LAN and WAN services for small networks
- ❖ CCNA certificate is a pre-requisite for many other Cisco certification like CCNA Security, CCNA Wireless, CCNA Voice, etc.
- ❖ Easy to follow study material available.

CCNAv7: Introduction to Networks

The student has successfully achieved student level credential for completing CCNAv7: Introduction to Networks course administered by the undersigned instructor. The student was able to proficiently:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices.
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

CISCO CERTIFIED NETWORK ASSOCIATE PCAP: PROGRAMING ESSENTIALS IN PYTHON

Name of the Course: Code Rider Python

Duration: 40 hours

Name of the Co-ordinator/ Instructor: N.Pavan Kumar, Assistant Professor / EEE

Vendor : Edu skill Foundation

Learn Python, the versatile programming language

How great would it be to write your own computer program? Python is a multi-paradigm programming language used by start-ups and tech giants like Google, Facebook, Netflix, and more. With intuitive, readable syntax, Python is a great first programming language to learn. Programming skills open you up to careers in almost any industry and are required if you want to continue to more advanced and higher paying software development and engineering roles. This course is a great place to start learning Python – no prior programming knowledge required. Completing the course earns you a Statement of Achievement.

It is split into two parts preparing you for two certifications:

- ❖ Part 1 (PE1: 35 hours) prepares you for PCEP – Certified Entry-Level Python Programmer Certification.
- ❖ Part 2 (PE2: 40 hours) prepares you for PCAP – Certified Associate in Python Programming Certification.

You'll learn these core skills:

- ❖ Think algorithmically – how to analyse a problem and translate it for a computer to process.
- ❖ Design, develop, and improve multi-module computer programs.
- ❖ Analyse and model real-life problems in Object-Oriented Programming categories.
- ❖ Understand a programmer's work in the software development process.
- ❖ Learn how a program is executed in a computer environment.
- ❖ Gain skills to create and develop your own programming portfolio.

CODE RIDERS 2021 Certificates students can download who all completed. Portal link and student details shared for your reference.

CISCO CERTIFIED NETWORK ASSOCIATE ENTERPRISES, NETWORKING, SECURITY AND AUTOMATION

Name of the Course: Enterprises, Networking, Security and Automation **Duration:** 40 hours

Name of the Co-ordinator/ Instructor: N.Pavan Kumar, Assistant Professor / EEE

Vendor: Edu skill Foundation

Network Security Concepts

Explain how vulnerabilities, threats, and exploits can be mitigated to enhance network security. Current State of Cyber security Describe the current state of cyber security and vectors of data loss. Threat Actors Describe the threat actors who exploit networks. Threat Actor Tools Describe tools used by threat actors to exploit networks. Malware Describe malware types. Common Network Attacks Describe common network attacks. IP Vulnerabilities and Threats Explain how IP vulnerabilities are exploited by threat actors. TCP and UDP Vulnerabilities Explain how TCP and UDP vulnerabilities are exploited by threat actors. IP Services Explain how IP services are exploited by threat actors. Network Security Best Practices Describe best practices for protecting a network. Cryptography Describe common cryptographic processes used to protect data in transit.

ACL Concepts

Explain how ACLs are used as part of a network security policy. Purpose of ACLs Explain how ACLs filter traffic. Wildcard Masks in ACLs Explain how ACLs use wildcard masks. Guidelines for ACL Creation Explain how to create ACLs. Types of IPv4 ACLs Compare standard and extended IPv4 ACLs.

ACLs for IPv4 Configuration

Implement IPv4 ACLs to filter traffic and secure administrative access. Configure Standard IPv4 ACLs Configure standard IPv4 ACLs to filter traffic to meet networking requirements. Modify IPv4 ACLs Use sequence numbers to edit existing standard IPv4 ACLs. Secure VTY Ports with a Standard IPv4 ACL Configure a standard ACL to secure vty access. Configure Extended IPv4 ACLs Configure extended IPv4 ACLs to filter traffic according to networking requirements.

NAT for IPv4

Configure NAT services on the edge router to provide IPv4 address scalability. NAT Characteristics Explain the purpose and function of NAT. Types of NAT Explain the operation of different types of NAT. NAT Advantages Describe the advantages and disadvantages of NAT. Configure Static NAT Configure static NAT using the CLI. Configure Dynamic NAT Configure dynamic NAT using the CLI. Configure PAT Configure PAT using the CLI. NAT64 Describe NAT for IPv6.

Ananth P.
Principal
SANSKRITHI SCHOOL OF ENGINEERING
BEEDUPALLI KNOWLEDGE PARK,
PUTTAPARTHI - 515134,
ANANTAPURAMU (Dt) A.P.

WAN Concepts

Explain how WAN access technologies can be used to satisfy business requirements. Purpose of WANs Explain the purpose of a WAN. WAN Operations Explain how WANs operate. Traditional WAN Connectivity Compare traditional WAN connectivity options. Modern WAN Connectivity Compare modern WAN connectivity options. Internet-Based Connectivity Compare internet-based WAN connectivity options.

VPN and IPsec Concepts

Explain how VPNs and IPsec secure site-to-site and remote access connectivity. VPN Technology Describe benefits of VPN technology. Types of VPNs Describe different types of VPNs IPsec Explain how the IPsec framework is used to secure network traffic.

QoS Concepts

Explain how networking devices implement QoS. Network Transmission Quality Explain how network transmission characteristics impact quality. Traffic Characteristics Describe minimum network requirements for voice, video, and data traffic. Queuing Algorithms Describe the queuing algorithms used by networking devices. QoS Models Describe the different QoS models. Network Management Implement protocols to manage the network. Device Discovery with CDP Use CDP to map a network topology. Device Discovery with LLDP Use LLDP to map a network topology. NTP Implement NTP between an NTP client and NTP server. SNMP Explain SNMP operation. Syslog Explain syslog operation. Router and Switch File Maintenance Use commands to back up and restore an IOS configuration file. IOS Image Management Perform an upgrade of an IOS system image.

Network Design

Explain the characteristics of scalable network architectures. Hierarchical Networks Explain how data, voice, and video are converged in a switched network. Scalable Networks Explain considerations for designing a scalable network. Switch Hardware Explain how switch hardware features support network requirements. Router Hardware Describe the types of routers available for small to-medium sized business networks.

Network Troubleshooting

Troubleshoot enterprise networks. Network Documentation Explain how network documentation is developed and used to troubleshoot network issues. Troubleshooting Process Compare troubleshooting methods that use a systematic, layered approach. Troubleshooting Tools Describe different networking troubleshooting tools. Symptoms and Causes of Network Problems Determine the symptoms and causes of network problems using a layered model. Troubleshooting IP Connectivity Troubleshoot a network using the layered model.

Network Virtualization

Explain the purpose and characteristics of network virtualization. Cloud Computing Explain the importance of cloud computing. Virtualization Explain the importance of virtualization. Virtual Network Infrastructure Describe the virtualization of network devices and services. Software-Defined Networking Describe software-defined networking. Controllers Describe controllers used in network programming.

Sanskriti School of Engineering
Puttaparthi - 515 134,
Anantapuramu (Dt) A.P.

Network Automation

Explain how network automation is enabled through RESTful APIs and configuration management tools.

Automation Overview Describe automation. Data Formats Compare JSON, YAML, and XML data formats.

APIs Explain how APIs enable computer to computer communications. REST Explain how REST enables computer to computer communications. Configuration Management Compare the configuration management tools Puppet, Chef, Ansible, and SaltStack IBN and Cisco DNA Center Explain how Cisco DNA center enables intent-based networking

WORKSHOP ON CORE SKILL TECHNIQUES IN CCNA

Duration: One Week 14-06-2021 – 19-06-2021

Objectives of the Workshop:

1. This course is designed to impart knowledge about detailed knowledge of Computer Networks, various protocols.
2. used in Communication, Managing and configuring Cisco Switches and Routers and various WAN technologies

Requirements: Tools/Hardware/Software....

- ❖ Packet Tracer Software

Mode of Workshop: Online (Zoom)

Workshops Schedule:

Timing: 6.00 PM -7.00 PM

Sl. No.	Date(s)	Topic Name	Resource Person
1	14-06-2021	<ul style="list-style-type: none">❖ Exploring the Network❖ Configuring a Network Operating System❖ Network Access❖ ISO Layers❖ IP Addressing & Subnetting IP Networks	Mr.N.Pavan kumar, HOD / EEE
2	15-06-2021	<ul style="list-style-type: none">❖ Introduction to Switched Networks❖ Basic Switching Configuration❖ VLANs, Routing Concepts❖ Static Routing❖ Access Control Lists	Mr.N.Pavan kumar, HOD / EEE
3	16-06-2021	<ul style="list-style-type: none">❖ Practical section by using pocket tracer	Mr.N.Pavan kumar, HOD / EEE
4	17-06-2021	<ul style="list-style-type: none">❖ DHCP, Network Address Translation for IPv4	Mr.N.Pavan kumar, HOD / EEE
5	18-06-2021	<ul style="list-style-type: none">❖ Connecting to the WAN❖ Configuring Serial Connections❖ Broadband Solutions	Mr.N.Pavan kumar, HOD / EEE
	19-06-2021	<ul style="list-style-type: none">❖ Monitoring the Network❖ Troubleshooting the Network❖ Network Architectures	Mr.N.Pavan kumar, HOD / EEE

Blue Prism RPA Tool

Name of the Course: Blue Prism RPA Tool

Date: 24/04/2021

Duration: 20 hours

Name of the Co-ordinator: Ms.N.Pranavi , Assistant Professor / ECE

Vendor: Edu skill Foundation

About Program:

Blue Prism's University Certificate

Blue Prism University is open to anyone, anywhere, any time! You'll receive world-class training about connected RPA and how to apply cutting-edge AI capabilities to automation. You'll also gain highly desirable skills and the confidence to successfully deliver them.

Program Benefits

To support Learning Edition users and institutions with Training Licenses, we provide free access to our product documentation, training materials, and learning communities through Blue Prism University and other support services.

Blue Prism Contents of Course:

Blue Prism's Robotic Automation

Process Studio

- ❖ Running a Process
- ❖ Basic Skills
- ❖ Process Validation
- ❖ Decision Stage
- ❖ Calculation Stage
- ❖ Data Items
- ❖ Review

Process Flow

- ❖ Circular Path
- ❖ Controlling Play
- ❖ Set Next Stage
- ❖ Break Points
- ❖ Collections and Loops
- ❖ Layers Of Logic
- ❖ Pages For Organization
- ❖ Review
- ❖

Workshop On MBOT-ROBOTIC TECHNOLOGY

13/11/2018

Foreign Guest Faculty: Mr. Paul Spiesberger from Vienna University of Technology has given a One Day Workshop on the MBot - Robotic Technology to the students of I Year B.Tech. It was indeed great opportunity to our students to have such eminent person in our campus and to listen his lecture.

Total number of participants for this program are 50 members.

International Students Exchange Program

Date: 17/02/2022

Sanskriti School of Engineering is pleased to announce its first of its kind in the International Students Exchange Program (ISEP) between the SSE and IAESTE (Only Local Chapter in South India). As part of ISEP, we have Mr. Alexander Walter Grass from Graz University of Technology from Austria, who will be in studying and working with us for another 6 months. Sanskriti Welcomes Mr. Alexander Grass to India and to the Sanskriti Group of Institutions - Puttaparthi.

V. J. Senthil

Anantapuramu (Dt) A.P.

Extending a warm welcome to Enno Peter Stubler, International Faculty from the Technical University of Vienna and RISE, Europe, who is in India through the IAESTE Foreign faculty exchange program. The RIT Program is a learning project under the SSE-RISE collaboration. Experts from Vienna University visit the campus as a part of the exchange program, facilitating skills, knowledge and experience exchange. Looking forward towards another enriching learning experience.

One day international workshop On ISO 50001 energy management system

Organized by

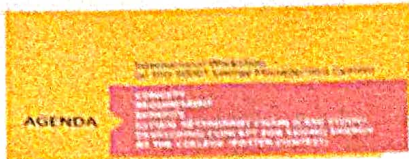

Department of Electrical and Electronics Engineering
&
Department of Electronics Communication Engineering

A one day International workshop on ISO 50001 Energy Management Systems was organized at Sanskriti School of Engineering by the department of Electrical and Electronics Engineering & Electronics Communication Engineering on 20-10-2017. The Principal Dr.A.Senthilkumar was the chief patron of the program and Mr. N. Pavan Kumar HOD-EEE & Mrs.H.Hemavathi HOD-ECE and Department faculties' members were the coordinators. The workshop was led by Mrs. Christiane Vallon from Vienna University of Technology, Vienna, Austria. The objective of the workshop was to bring the participants up-to-date on the upcoming methodologies and frameworks for the Energy management in life cycle.

The program was inaugurated at 9.30 am on 20-10-2017 at SSE by the Principal Dr.A.Senthilkumar and Dr.P.Narayana Reddy, Group Director SGI was the guests of honour. The guests appreciated the readiness of the management to organize programs on state of the awareness of the students regarding energy management. 25 students from third year EEE & 51 students from third year ECE and faculties (Department of EEE & ECE) participated in this workshop. The program covered an overview of the ISO 50001 Lifecycle, A glance of the existing Global Restaurant chain and developing concepts for saving energy based on rules framed by ISO 50001 for energy management. The program had theory, hands on and group task sessions. The group tasks helped to visualise and understand the salient aspects through poster presentations

Course Outline

The course is a 3-day workshop (28th-30th Oct) open for all students, faculty, staff, and community members. The course is designed to provide a comprehensive understanding of the SDG4: Quality Education and Skills. The course will cover the following topics: Introduction to SDG4, Understanding the SDG4 targets, and the role of education in achieving the SDGs. The course will also include a group activity where participants will develop a plan of action for their institution to achieve the SDG4 targets.

Mrs. Christiane Vulliamy
Visiting University of Natural Resources and Life Sciences,
Bundaberg

The Director

Mrs. Christiane Vulliamy
has a M.A. in Education and
a Ph.D. in Management. She is the
Director of the School of Engineering
and Technology at the University of
Natural Resources and Life Sciences,
Bundaberg.

She has been working in the
education sector for over 20 years. She
has a strong background in research and
teaching. She is currently working on a
project to develop a new course for the
School of Engineering and Technology.

Workshop Agenda

The workshop is a 3-day workshop (28th-30th Oct) open for all students, faculty, staff, and community members. The course is designed to provide a comprehensive understanding of the SDG4: Quality Education and Skills. The course will cover the following topics: Introduction to SDG4, Understanding the SDG4 targets, and the role of education in achieving the SDGs. The course will also include a group activity where participants will develop a plan of action for their institution to achieve the SDG4 targets.

Name of the Event: GUEST LECTURE

TOPIC: IGNITING YOUNG MINDS

Conducted by: SSE

Date: 07-08-2021

Venue: Anahata Auditorium

Introduction:

Sanskriti school of Engineering Organised an Guest lecture Programme on "Talk on Igniting Young Minds" by Mr. Rama Kotapally, Founder, T-Silicon, Bangalore, for the benefit of its faculty and students on 07-08-2021.

Resource Person details:

Mr. Rama Kotapally,
Founder,
T-Silicon,
Bangalore.

Description:

The lecture started with an introduction of VLSI chip fabrication.

He said that, over the years there has been an increased demand for skilled VLSI engineers at IC design companies. This is due to the huge advances in AI, EV, and smartphone technologies, all of which rely on smart ICs. Chip design and manufacturing are collectively called VLSI design where VLSI stands for Very-Large-Scale-Integration. The current technology in use is sub 10 nanometer. This enables designers to pack billions of transistors on a single IC. With large transistor densities, electronic gadgets can be made very compact yet powerful and rich in features.

Almost every electronic Device we use today has chips with multi-million transistors. Mobile phones, televisions, medical electronic and monitoring devices, and all electronic equipment have these chips in them. Amplifiers, Sensors, Phase-Locked Loops, Processors, etc. are all VLSI designs. VLSI ICs can be classified as Application Specific Integrated Circuit (ASIC), FPGA- Field-programmable Gate arrays, and

custom Analog IC's. There are many job openings for trained ASIC engineers, FPGA designer engineers, and Analog designers, each of these areas needs a specialized skillset. In this regard, T silicon company provides various courses for the students those who are interested to shine in core companies.

This Guest lecture series looks at the impact of AI on the experience of learners and teachers, now and in the future, and considers the impact on the global education and training industry and the global economy. Also he said that the fundamentals of AI • Learn the foundation and terminology of ML • Understand the current trends in AI

The various Machine learning techniques have been briefed by the resource set up an Research laboratory at our campus. The guest lecture was attended by III B.Tech ECE students, Sanskrithi school of Engineering on 07-08-2021 at Anahata Auditorium.

He thanked Mr.Vijayabhasker Reddy, Chairman, SGI, Principal Dr.A.Senthil Kumar, for their great support towards the successful completion of webinar, also he thanked the faculty members for their support and coordination towards guest lecture and also he conveyed his heartfelt thanks to all the participants.

QUADROTOR workshop Report

An Association with SKYFI Labs

A two-days workshop on QUADROTOR was organised by the department of ECE & EEE in association with skyfi Labs in SSE from 9th & 10th April 2018.

EVENT DESCRIPTION:

The ECE department and EEE department in association with skyfi conducted a two days event "Hands On workshop on quadrotor" A quadrotor-type UAV is a type of helicopter which is propelled by four rotors. Adjacent blades rotate in opposite directions and a tail rotor is not required in order to counteract the angular momentum of the propellers. As a coupled dynamical system, by altering the motor speed, the position is also changed. This program is targeted to Electronics & Electrical students practically understand the overall design, configuration and testing of the Quadrotor project.

About SkyFi Labs :

Their aim is to improve the skills and employability of Indian Engineering Students by converting textbook geniuses into productive engineers who can build things "that work". SkyFi Labs dream to create a world where engineering students develop enough skills needed by the industry and can be absorbed directly upon graduation.

Thereby, SkyFi Labs help companies reduce their training expenses by recruiting graduates who are skilled and can be productive on day one.

SkyFi Labs transfer knowledge, resources and technology from companies to colleges and skilled graduates back. They offer training programs that are certified by industry and delivered by well-qualified trainers.

SESSION ACTIVITIES WITH RESOURCE PERSON :

- Mr.Sushanth
- Mr.Bhaskar ,

are the Resource persons for the work shop. Exactly at 11.00 AM the workshop is started by is SkyFi Lab members with the explanation of Unmanned Aerial Vehicle. Total 70 students participated in the workshop.

V. Senthil
Principal
Sanskriti School of Engineering
Beedupalli Road, Prasanthnagar,
PUTTAPARTHI - 515 134.
Anandapuri (D) AP.

COURSE HIGHLIGHTS:

- Build and Test your own Quadcopter
- Introduction to design and development of Multi Rotor Vehicles
- Understanding the Electronics circuitry involved in Quadrotor
- Learn about Stability and Control of Drones
- Learn about the working of sensors like Accelerometer and Gyroscopes
- Hands-on experience on DC motors, ESCs (Electronic Speed Controllers) and Quadcopter Embedded control board

Day 1 Activity:

On first day the resource person shared the knowledge on

- Multirotor Vehicles – Introduction
- Rotary-wing aircraft and their dynamics
- Design of the Structure
- Stability & Control of Drones
- Algorithm of the control systems

Finally students started to design their own quadrotor model with the guidance of resource persons and they made it with interest .Totally 11 teams made their own model of quadrotor.

Day 02 Activity:

The resource persons calibrated all the quadrotors from 11 teams and they fixed battery for all models and they started flying the drone assembled by Each team .

The resource persons taught the calibration & test procedures for all the teams. Finally all the drone models was flired by the students with full of Excitement with happiness.

Red Hat Enterprises Linux 8

Name of the Course: Red Hat Enterprises Linux 8 Duration: 25 hours

Name of the Co-ordinator: Mr. Adarsha SP, Assistant Professor / CSE

Date: 31/05/2021

Vendor: Edu skill Foundation

About Program:

The OS that lets you do what you want. Developers can choose from the most recent stable development languages, databases, tools, and container technologies on the latest hardware and cloud environments. Red Hat Enterprise Linux 8 is the OS that gives developers the freedom to focus on their code.

Red Hat System Administration is designed for IT professionals without previous Linux system administration experience. The course is intended to provide students with Linux administration "survival skills" by focusing on core administration tasks. Red Hat System Administration I also provides a foundation for students planning to become full-time Linux system administrators by introducing key command-line concepts and enterprise level tools.

Contents of Course:

1. Getting Started with Red Hat Enterprise Linux.
2. Accessing the Command Line.
3. Managing Files from the Command Line.
4. Getting Help in Red Hat Enterprise Linux.
5. Creating, Viewing, and Editing Text Files.
6. Managing Local Users and Groups.
7. Controlling Access to Files.
8. Monitoring and Managing Linux Processes.
9. Controlling Services and Daemons.
10. Configuring and Securing SSH.
11. Analysing and Storing Logs.
12. Managing Networking.
13. Archiving and Transferring Files.
14. Installing and Updating Software Packages.
15. Accessing Linux File Systems.

Course Registration Details:

Registration is Not started YET. It's under Process from Edu Skill Ind.

One Week Webinar Details:

One week webinar is conducted on RedHat Enterprise Linux 8 dated from 31/05/2021 to 04/06/2021 for students of S S E.

Following are the topics covered in the webinar:

1. Getting Started to RedHat Enterprise Linux.
2. Accessing Command Line.
3. Managing Files from the Command Line.
4. Creating, Viewing, and Editing Text Files.
5. Controlling Access to Files.

Total 110 students registered for this course from the Department of Computer Science and Engineering. We conducted a one week online short term course Red Hat to the students for creating awareness of the course and provided a participation certificate.

PRODUCT DESIGN AND DRAFTING BY CATIA

Name of the Course: CATIA

Duration: 35 hours

Name of the Co-ordinator: Dr.Rajareddy, HOD/MECH

Date: 22/04/2021

Vendor: Andhra Pradesh State Skill Development Center

About Program:

III-II Mechanical Engineering students have under gone CATIA V5 Modelling training from 22/04/2021 to 29/04/2021 under APSSDC programme for skill development. 22 students have registered for the programme and obtained the certificate from APSSDC. The training was scheduled for the whole day in all seven days. During the training students were taught Solid modelling to create various solid models from 2-D drawing environment to build machine components and assemble them. Get the required views of the assembly and sectional views of the component assemblies. In surface modelling they were given hands on sessions on creating solid modelling with the contour surfaces which help them to create irregular but non geometrical surfaces using NURBs, Bezier curves. The certificates will be issued to students through APSSDC for the successful completion of the programme.

Overview of SANSKRITHI HACKATHON-2020

Our Hon'ble Prime Minister, Shri Narendra Modi, envisages a Digital India to bridge the digital divide in our country and further promote digital literacy in order to make development a comprehensive mass movement and put governance within everyone's reach in India.

In order to work towards our PM's vision, Ministry of HRD, All India Council for Technical Education (AICTE) proposed the Smart India Hackathon 2020, a unique initiative to identify New and disruptive digital technology innovations for solving the challenges faced by our country. This initiative aimed to institutionalize a model for harnessing the creativity and technical expertise of 3.0 + million students for direct benefit of our nation.

Smart India Hackathon 2020 was a computer programming competition which involved all Engineering colleges with a reach to approximately 30 Lakh students from across India. It was a plan to challenge the students to think out-of-the-box and offer innovative ideas to build smart applications which will help address major real time problems in our country.

Twenty-nine Departments of Government of India participated in this event. Each Department had identified few problem statements to which students were expected to provide innovative, sustainable digital solutions. This was the first effort by Government of India to involve young students in proposing solutions for problems faced by Departments in day-to-day functioning. This led the students to think out of box and provide innovative, disruptive and sustainable solutions, which could be pursued after the Hackathon for further refining of solutions.

New and disruptive digital technology innovations for solving the challenges faced by our country. This initiative aimed to institutionalize a model for harnessing the creativity and technical expertise of 3.0 + million students for direct benefit of our nation.

Smart India Hackathon 2020 was a computer programming competition which involved all Engineering colleges with a reach to approximately 30 Lakh students from across India. It

was a plan to challenge the students to think out-of-the-box and offer innovative ideas to build smart applications which will help address major real time problems in our country.

Project -1

PREDICTION OF CARDIAC ARRHYTHMIA USING VOTING CLASSIFIER

ABSTRACT

Cardiac arrhythmia is a disease dealing with the improper beating of heart. When it is normal, the heartbeat is nice and regular and has just the right rate. But when the heartbeat is too fast, too slow, or beats in an irregular rhythm, it is known as a cardiac arrhythmia which refers to the abnormal heart rhythm, which is among the most common of the heart disorders. An arrhythmia is caused by a disruption of the heart's normal electrical system, which regulates the heart rate and heart rhythm. The severity of cardiac arrhythmias can vary tremendously. Most arrhythmias are completely benign and inconsequential, while others are extremely dangerous and life-threatening. And many of them, while not particularly dangerous, produce symptoms that can be quite disruptive to your life

AIM OR OBJECTIVE:

In proposed system, Ensemble algorithm is used to get an accuracy of 80% in the prediction of type of arrhythmia which consists of a collection of four algorithms like Random Forest, Gradient boosting, Logistic Regression and Ensemble algorithm.

PROJECT -2

AIM

Stop piracy

ABSTRACT

The Indian film industry is one of the largest film industries in the world .Around 1000 films are produced each year in India. It earns around \$2 billons (146,491,000,000 R.s) from legitimate sources such as screening at theatres .However , according to industry sources , the clandestine *film piracy industry* earns around \$2.7 billons..... Content theft or piracy in a film industry originates from 'cam-cording' in cinema halls .It means onus is on the internet service provider(ISP) to block access to every web-site/ torrent that may facilitate illegal download of a movie.

DESCRIPTION

In INDIA, the pirated movies gradually increasing yearly. Economically, it is most affected on FILM Industries. By this we are focus on stop pirated movies by implementing IR LED's Technology. By this IR technology we can reduce the picture quality, and then the cam-orders consequently stop recording pirated movies.

PROJECT-3

WOMENS SMART WEAPON

AIM

Women's smart weapon is a smart bracelet that allows you to notify your friends and the police where you are and that you need help. It works via Bluetooth 'low energy' connection and is activated by simultaneously clicking on the two buttons on the side. In the situations where you can't use your phone, because it is either locked or your phone purse will be able to send out the an emergency alert to the people who will want to be the there for you.

ABSTRACT::

New-Age Solution for the Age-Old Problem SALAN is your trusted companion in any unforeseen distress situations, getting you the help you need fast & swiftly. SALAN runs on a Button activation technology which uses a simple mechanism for activation, making it fast & convenient to communicate an emergency to your loved ones. It is a universal solution that can be used across a wide range of scenarios including women safety, senior citizens & even hard hat workers. SALAN's ultra-portable, non-intrusive design is easy to carry & wear, carry it in your pocket. SALAN connects over Bluetooth with Smartphone (IOS & Android) and uses the power of Smartphone to drive location, audio/video recording and SOS communication to three predefined numbers.

PROJECT-4

AGRICALTCHNO SOF

The Problem

Price of haul

Due to less price of haul farmers are facing a lot of problem

Demand of crops

Due to sudden increase and decrease of prices on vegetables due to demand

Managing Markets

In this farmers are not getting reasonable price of haul from third persons

Summary

My grandfather used to say that once in your life you need a doctor a, lawyer, a policemen and a preacher but everyday three times a day you need a farmer.

Finally the product of the project is farmer can search the crops to select alternative crop after the harvesting of the crop a farmer can hand over the crop directly to stockholders with avoiding third person and farmer can get price of a haul.

This project will be used to change the farmer existing System.

About the Programme:

HackWithVajrasoft is a mega contest for all Technical students across India, it is an opportunity to showcase your coding talent, learn new technologies and build an efficiently working solution. The Hackathon is open to all the passionate engineering students in the country. The first editions of Hack With Us 2020 presented by Sanskrithi group of Institutions in association with VajraSoft.inc, in a bid to help developers and entrepreneurs shape their ideas and bring them to fruition. With a wide range of exciting domains to work on & over 20 hours to code for, this is your platform to cover your ideas into innovative solutions.

Objective of the Program:

Hack with Vajra Soft invites all the student innovators, thinkers and makers of the country to join the revolution, who have a dream to create something new, aspire to make a difference, contribute to India's success towards becoming an Innovation Hub. Give your ideas a jump-start by sculpting your innovation with technical aspects.

HACKATHON 2020 Projects from EEE

Arduino Smart Blind Stick Project

ABSTRACT:

Ever heard of Hugh Herr He is a famous American rock climber who has shattered the limitations of his disabilities; he is a strong believer that technology could help disabled persons to live a normal life. In one of his TED talk Herr said "Humans are not disabled. A person can never be broken. Our built environment, our technologies, is broken and disabled. We the people need not accept our limitations, but can transfer disability through technological Innovation". These were not just words but he lived his life to them, today he uses Prosthetic legs and claims to live to normal life. So yes, technology can indeed neutralize human disability; with this in mind let us use the power of Arduino and simple sensors to build a Blind man's stick that could perform more than just a stick for visually impaired persons.

his Smart stick will have an Ultrasonic sensor to sense distance from any obstacle, LDR to sense lighting conditions and a RF remote using which the blind man could remotely locate his stick. All the feedbacks will be given to the blind man through a Buzzer. Of course you can use a vibrator motor in place of Buzzer and advance a lot more using your creativity.

Air Drones for Explosive Landmines Detection

Abstract:

Explosive landmines have cost the lives of hundreds in several countries. This paper presents a field report of a low cost unmanned aerial vehicle -ARdrone 2.0- used as a complemented tool for landmine visual detection in rural scenarios. The main contribution of this work is the practical experimentation with an integrated tool. This tool is composed by the ARdrone quadrotor and a base station for monitoring the mission. Based on visual feedback from the onboard camera, algorithms for landmine detection are applied. Experiments have been carried out to quantify the performance of the platform by means of measuring the percentage of the detection at different set of flight speeds and altitudes. The goal is not only to detect fully visible landmines but also those partially buried. It has been observed an effective percentage of the detection over 80% when flying at low altitudes about 1m from the ground at speeds up to 2.2ms - 1. The visual methods introduced herein might enable the ARdrone quadrotor to be used as a low-cost autonomous platform for safe area coverage applied to landmine detection in real scenari

Solar Incubator

Abstract:

Incubation of poultry egg is very important these days as the demand for chicken is increasing day by day. But the process of hatching eggs by the conventional method is very difficult as well as it consumes much power. In short conventional method of egg hatching requires continuous supply of power. In this paper a new method of solar poultry incubator design is suggested which could be used to hatch eggs from solar pv and hence could reduce the usage of power and can maximize the usage of solar power which is a renewable source of energy. By implementing this method of solar poultry incubator we will be able to reduce the power consumption of the incubator by 75% and the cost involved in the design also yields profit and hence could bring out a revolution in this field.

Nutrition research to affect food and a healthy lifespan

ABSTRACT

Proper nutrition offers one of the most effective and least costly ways to decrease the burden of many diseases and their associated risk factors, including obesity. Nutrition research holds the key to increasing our understanding of the causes of obesity and its related comorbidities and thus holds promise to markedly influence global health and economics. After outreach to 75 thought leaders, the American Society for Nutrition (ASN) convened a Working Group to identify the nutrition research needs whose advancement will have the greatest projected impact on the future health and well-being of global populations. ASN's Nutrition Research Needs focus on the following high priority areas: 1) variability in individual responses to diet and foods; 2) healthy growth, development, and reproduction; 3) health maintenance; 4) medical management; 5) nutrition-related behaviours; and 6) food supply/environment. ASN hopes the Nutrition Research Needs will prompt collaboration among scientists across all disciplines to advance this challenging research agenda given the high potential for translation and impact on public health. Furthermore, ASN hopes the findings from the Nutrition Research Needs will stimulate the development and adoption of new and innovative strategies that can be applied toward the prevention and treatment of nutrition-related diseases. The multidisciplinary nature of nutrition research requires stakeholders with differing areas of expertise to collaborate on multifaceted approaches to establish the evidence-based nutrition guidance and policies that will lead to better health for the global population. In addition to the identified research needs, ASN also identified 5 tools that are critical to the advancement of the Nutrition Research Needs: 1) omics, 2) bioinformatics, 3) databases, 4) biomarkers, and 5) cost-effectiveness analysis.

MULTI-PURPOSE AGRICULTURE MACHINE BY USING SOLAR

Abstract:

Energy - demand" is one the major need for our country. Finding solutions, to meet the "Energy - demand" is the great challenge for Social Scientist, Engineers, Entrepreneurs and Industrialist of our Country. Applications of Nonconventional energy are the only alternate solution for conventional energy demand. Like other development activities, agriculture sector is one of the major areas, which finds number applications of making it work using non-conventional sources. Solar energy plays an important role in agriculture products and for irrigation purpose for pumping the well water in remote villages without electricity. Mechanization involves the use of a hybrid device between the power source and the work. The paper deals with multi-purpose agriculture machine for seed feeding, spraying pesticides, fungicides, and fertilizers and cutting. Thus paving way for a more economical and multi-usable equipment for farmer which is also easy to clean and maintain, easy to handle and do not require fuel, hence cost gets reduced and helping farmers to a great extent in their fields.

Report on one day international workshop on Agile Software Development Model

Organized by
Department of Computer Science & Engineering

A one day International workshop on AGILE SOFTWARE DEVELOPMENT MODEL was organized at Sanskrithi School of Engineering by the department of Computer Science & Engg on 27-10-2017. The Principal Dr.A.Senthilkumar was the chief patron of the program and Mr. Noor Muhammed HOD CSE, Mr. Ranjith Balakrishnan (Assistant Professor), Mr.GyanChandYadav (Assistant Professor) and Ms.Reshma (Assistant Professor) were the coordinators. The workshop was led by Dr.Raul Vallon from Vienna University of Technology, Vienna, Austria. The objective of the workshop was to bring the participants up-to-date on the upcoming methodologies and frameworks for the Software development life cycle. The Agile model has become popular in a very short time due to its efficiency.

The program was inaugurated at 9 am on 27 -10-2017 at SSE by the Principal Dr.A.Senthilkumar. Mr.RamaVarma DSP Anantapur and Dr.Bharathi Assistant Professor JNTU Anantapur were the guests of honour. The guests appreciated the readiness of the management to organize programs on state of the art technologies for the benefit of the students. 52 students from third year faculty (Department of Computer Science & Engg) participated in the workshop.. The program covered an overview of the Software Development Lifecycle, A glance of the existing methodologies and the agile model in detail. The program had theory,, hands on and group task sessions. The group tasks helped to visualise and understand the salient aspects of the agile model.

The workshop concluded at 5pm on 28-10-2017. The Principal Dr.A.Senthilkumar presided over the valedictory function and Ms.Navya Deepika (Third Year CSE) proposed the vote of thanks.

The program was given an excellent rating by the participants since Dr.Raul Vallon demonstrated methods of visualising and verifying the abstract concepts of software development lifecycle in a concrete manner

ORIENTATION PROGRAM

22-03-2022

EVENT DESCRIPTION:

As a part of CSIR activity & MHRD Innovation the Skill orientation program, which was organized by our HOD N. Pavan kumar, provided an opportunity to the students to gain practical skills about rural areas. We are the students of 3rd EEE were surveyed the present conditions of Bukkapatnam village. As a part of social relevant projects from JNTUA curriculum we were visited the government school students in bukkapatnam area.

The EEE students are conducted a small electrical expo in bukkapatnam government higher secondary

school for to create awareness on students towards electrical department. The project expo very easily attracted more than 150 students in govt higher secondary school. The Principal and faculty members were very pleased with the enthusiasm and the innovative and creative ideas the students put to show. From the Department of EEE faculties are given token gifts to the students

A one day
Webinar on

“Challenges in Automated Driving IN artificial intelligence” (12.06.2021)

A one day webinar titled “Challenges in Automated Driving IN artificial intelligence” was organized by AIRWIN GLOBAL SOLUTIONS through Zoom meet on 12.06.2021 from 12.00p.m. to 1.30p.m. to the students and staff of various Engineering Colleges around the nation with an objective to offer a better understanding of Various Software Development Process, How to running in Pandemic situation in industry, Current Software Technology, Skill that require in Software Industry Making

Welcome address and resource person introduction were delivered by Mr.C.Sivakumar Associate professor /CSE. The session was handled by eminent resource person **Mr.Millind Kulkarni Chief Architect AIRWIN GLOBAL SOLUTIONS** the resource person explained the concept of **Challenges in automated driving IN artificial intelligence** with demonstration in excellent manner. Totally 120 participants registered from CSE, Students. About 120 participants including various other college staff members actively participated in this session and gained knowledge in **Various Software Development Process**. Vote of thanks was given by Ms. SaiVandana AP/CSE and also he was the host of this webinar. After the session participants gave the feedback through feedback link Participation Screenshot.

SKILL ORIENTATION PROGRAM

22-03-2022

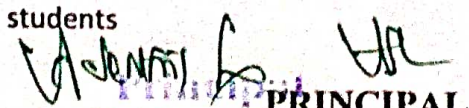

EVENT DESCRIPTION:

As a part of CSIR activity & MIIRD Innovation the Skill orientation program, which was organized by our HOD N.Pavan kumar, provided an opportunity to the students to gain practical skills about rural areas. We are the students of 3rd EEE were surveyed the present conditions of Bukkapatnam village. As a part of social relevant projects from JNTUA curriculum we were visited the government school students in bukkapatnam area.

The EEE students are conducted a small electrical expo in bukkapatnam government higher secondary school for to create awareness on students towards electrical department. The project expo very easily attracted more than students 150 in govt higher secondary school. The Principal and faculty members were very pleased with the enthusiasm and the innovative and creative ideas the students put to show. From the Department of EEE faculties are given token gifts to the students

National conference On Challenges In Renewable energy & Technology 28/04/2018 Common for all B.Tech Students

The Humanities & sciences department of SSE held a National Conference on 'Challenges in renewable energy & technology' on April 28, 2018. The chief guest for the occasion was Dr. H L Srinivasa, senior scientist of ISAC. He spoke at great lengths about the journey of India into the group of elite countries that dominate space technology. From Aryabhata to the latest INSAT 4C, India has come way ahead of its counterparts like USA, Russia and China. ISRO credits its growth to visionaries like Vikram Sarabhai, Satish Dhawan, U.R. Rao and Dr. A P J Abdul Kalam. "Aim for the Moon, if not you will at least fall among the stars"; but ISRO has mastered landing on the moon, and has now set its aim for Venus. He rallied students to think beyond the conventional theories and concepts. Sometimes breaking the barriers is what takes to achieve the impossible or new. The event concluded with the honouring of the guests and release of CD detailing various activities of the H&S Department of SSE.

Total number of participants for this program are 100 members.
